2025**

# CAMPUS HIGHLIGHTS

**Graduation Day** commenced with an elegant lamp-lighting ceremony led by our esteemed dignitaries, accompanied by a soulful invocation dance. Our distinguished chief guest, **Dr. Sanjay Jain**, was warmly introduced by our revered principal, **Ms. Rajni Ashok**, an inspiring and dedicated leader. In her address, the principal highlighted the year's remarkable achievements through a thoughtfully curated PowerPoint presentation. The evocative video, **The Year Gone By**, took everyone on a nostalgic journey, capturing moments of joy and reflection.

As a mark of honor and recognition, certificates were gracefully presented to the students by both our honorable chief guest and the principal, while dedicated teachers shared heartfelt reflections and aspirations for their students. The chief guest's address was truly inspiring, igniting a spark of motivation among the teachers. The event concluded on a graceful note with a heartfelt vote of thanks by **Ms. Parvathy**, our academic coordinator, followed by a delightful dinner that brought everyone together. The celebration was a resounding success, made possible by the unwavering support of our exceptional educators.

## Talent Search Exam

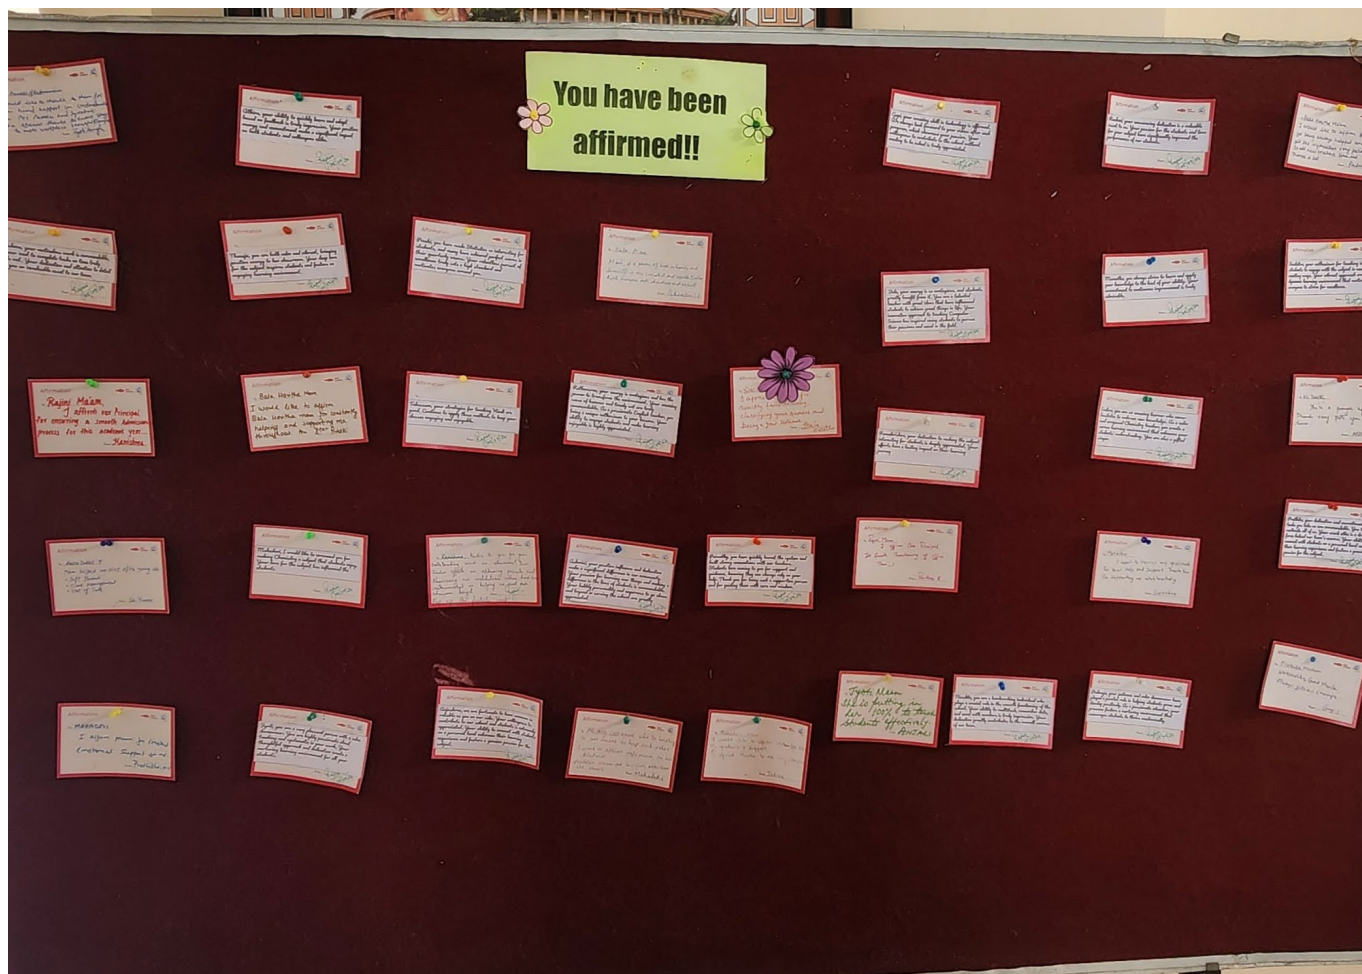

**K S Academy** conducted a **Talent Search Exam in Accountancy** for PU1 and PU2 students to identify the "**Wiz-Kid of Accountancy**." The examination was held across multiple colleges in Bengaluru.

We are delighted to share that **Nyshitha Munnamgi from Class 1F** secured second place in this prestigious competition. She was awarded a Certificate of Excellence along with a cash prize of 10,000, scoring an impressive 93 out of 100 marks.

The college takes immense pride in her achievement and wishes to see many more students excel in such competitive examinations in the future. Congratulations, Nyshitha!

# CULTURE AT CAMPUS

A positive campus culture plays a very important role in student life as it significantly impacts their academic performance, encourages collaboration and support, helps in social development and builds friendships and sense of belonging.

During our daily Assembly, we have two students who express their Gratitude. Students express gratitude to their parents, teachers, friends or relatives who provide unwavering support to them and help in their development. They also express their gratitude to Mother Earth, our nation and defence forces. This culture enables students to develop stronger bonds with their parents and teachers and helps them to value relationships.

In our classrooms, teachers actively practice affirmations and encourage students to share positive experiences. We have a dedicated **Affirmation Board** where notable contributions made by students are recognised and displayed, fostering a culture of appreciation and encouragement.

Affirmation is an integral part of our college, flowing from the leadership team to teachers and students alike. Even our staff meetings begin with affirmations, sharing good things, and engaging energisers, creating a supportive, inclusive, and motivating environment for all.

Accountancy Teacher

# PROFESSIONAL DEVELOPMENT

- The Professional Development team met new teachers who have joined our ecosystem and facilitated a Pre-Service training program.
- We also had a one-day training program for the Assistant Managers across campuses.
- We then had a Culture session on Building Aware, Compassionate and Engaged Teams for our central office team members.
- We offered two workshops on **Cultivating Curiosity: Inquiry-Based Learning for Young Minds** and **SEL in the Early Years: Nurturing Empathy and Emotional Intelligence**.

# STUDENT EDGE

## My Journey to Winning 2nd Place in the KSA Marvel Accountancy Exam

Success is a combination of hard work, perseverance, and the right guidance. Recently, I had the incredible opportunity to participate in the **KSA Marvel Accountancy Exam**, and I am beyond thrilled to share that I secured 2nd place in this prestigious competition! It was a challenging yet rewarding experience that tested my knowledge, problem-solving skills, and ability to perform under pressure.

**The KSA Marvel Accountancy Exam** was designed to assess students on various aspects of Accountancy. The paper was well-structured, covering both conceptual and application-based questions. I particularly appreciated the balance between theory and practical problems, as it truly tested our in-depth understanding of the subject rather than just rote learning.

When I first received the question paper, I felt both excited and nervous. The questions were thought-provoking, but my preparation and practice helped me stay confident. I systematically tackled the paper, ensuring accuracy and time management. As I progressed, I realised how much I had learned throughout my academic journey, and that gave me an immense sense of satisfaction. Walking out of the examination hall, I felt a mix of relief and anticipation, hoping for the best results.

### The Joy of Winning

The moment I heard my name being announced as the 2nd place winner, I was overwhelmed with joy and gratitude. Winning a cash prize of 10,000 was an added motivation, but beyond the reward, the recognition and achievement itself meant the most to me. This success has reinforced my love for accountancy and encouraged me to aim higher in the future.

### Gratitude and Acknowledgments

I firmly believe that no achievement is possible without the support and encouragement of those around us. I would like to extend my heartfelt gratitude to my college and my Accountancy teacher **Ms Padmaja** for giving me this opportunity and guiding me throughout my preparation. Their encouragement and expertise played a crucial

role in helping me perform well in the competition.

I am also deeply thankful to my parents, whose unwavering support and belief in me have always been my biggest strength. Their constant motivation pushed me to work harder and believe in my potential. Without their encouragement, this achievement would not have been possible.

This experience has been a milestone in my academic journey. It has taught me that with dedication, proper guidance, and perseverance, anything is possible. Winning this competition has not only boosted my confidence but also strengthened my passion for accountancy. I look forward to many more such challenges in the future, and I am excited to continue my learning journey.

To all aspiring accountancy students—believe in yourself, stay consistent, and never stop learning. Success will follow!

# LEADERSHIP CORNER

## The Role of Teachers in Preparing Students for Board Examinations

Board examinations are crucial milestones in a student's academic journey, shaping their future and serving as a gateway to higher education and career opportunities. As exam dates approach, student reactions vary from confidence to anxiety. While some students prepare independently, many seek guidance from teachers, parents, or peers. Teachers, being the primary source of knowledge and mentorship, play a key role in equipping students with the right strategies, mindset, and support to approach exams confidently.

### Effective Time Management: A Crucial Element

Effective time management is essential for successful exam preparation. Teachers help students develop this skill by encouraging them to create structured study schedules. These schedules should allocate time for each subject, include breaks to avoid burnout, and prioritise topics based on the exam blueprint. Breaking study sessions into manageable chunks reduces overwhelm, enhances retention, and ensures efficient use of study time. Teachers also guide students in setting realistic goals for each study session, focusing on key topics, and strategizing based on the marks distribution. This approach helps students stay on track and navigate their preparation more effectively.

### Creating a Supportive and Motivating Learning Environment

A positive learning environment boosts students' confidence and performance. Teachers should provide academic and emotional support by:

- Clearly communicating exam expectations and guidelines.
- Offering study resources such as handbooks, model papers, and revision materials.
- Providing personalised feedback to improve weaker areas.

Emotional support is just as important. Teachers should encourage students to ask questions, express concerns, and build self-confidence through positive reinforcement. A nurturing environment reduces stress, enhances motivation, and fosters resilience—key traits for academic success.

### Personalised Learning Approaches

Each student has unique learning needs, so a one-size-fits-all approach is not always effective. Teachers can divide students into smaller groups based on their academic levels and learning styles to offer targeted instruction. High achievers can be challenged with advanced problem-solving, while students needing extra support can receive guided sessions and extra practice. Interactive learning, such as group discussions and mock exams, fosters engagement and critical thinking, helping students track progress and refine their strategies.

## Prioritizing Mental and Physical Well-Being

A student's academic success is closely linked to their mental and physical well-being. Teachers should emphasise the importance of:

Maintaining a healthy routine, including adequate sleep, nutrition, and exercise.

Practicing stress management techniques, such as mindfulness and relaxation exercises.

Encouraging a balanced approach to studies, preventing burnout and ensuring sustained motivation.

A holistic approach to student well-being not only enhances concentration and retention but also contributes to overall academic performance, making it beneficial for both students and teachers.
